# ABOUT US

Infinite Finances is a platform for the future of funding that powers data for the new equity blockchain located at 27 Bradford Street, Parnell, Auckland, 1052, New Zealand. Infinite Finances is a suite of the yield-generating ecosystem, focused on accessibility, optimization, and longevity with a mission to accelerate the world's transition to cryptocurrency. This relatively new approach to blockchain-powered finance, which bypasses traditional intermediaries, has seen locked-up assets grow from less than \$1 billion in 2019 to more than \$100 billion just two years later, attracting at least one million investors in the process.

Infinite Finances helps you gain exposure to DeFi in your portfolio and significant profits on crypto assets without having to deal with the complications of holding the asset directly. Our Smart contracts are programmed on DeFi protocols, a combination of existing blockchain-related technologies — such as digital assets, wallets, and auxiliary services to create a financial ecosystem capable of bypassing banks, brokers, and the other middlemen who traditionally manage and process financial services.

Infinite Finances Smart Contracts are highly programmable and are designed to automatically execute new ways to build long profitability for users and the company, based on an infinite number of variables. Hence, offers many compelling use cases, many of which are beyond the reach of conventional fiat-based financial systems.

## The Founder

Norbert Rachtan a strategic financial leader with a focus on building positive impacts for generations to come, founded Infinite Finances LLC in 2022. As President of the Board and Chief Financial Officer, Mr. Norbert is responsible for the company's global finance organization as well as global corporate services, facilities, and indirect procurement. As a Certified Professional Accountant with more than 15 years of experience in progressively senior roles, Norbert brings a breadth of experience in corporate and operational finance, cross-border M&A, credit, and capital investment planning to Infinite Finances. He has been instrumental in uniting teams located around the globe, driving profitable growth across Infinite Finances's different routes to market, and increasing the company's global footprint. Mr. Norbert led corporate development efforts for a rapidly growing Toronto-based environmental services business and served in various roles of increasing responsibility at both UGI.

# WHY US?

We anchored our strategies to a meaningful purpose, with a focus on creating long-term, sustainable impact across a variety of stakeholders. And our Growth Strategies continue to “de-risk” the business by becoming more resilient to potential declines in the price of BTC.

- ✓ As Infinite Finances continues to deploy more powerful miners, we increase our hash rate, and therefore our probability of earning Crypto.
- ✓ Providing a pure-play crypto investment for the capital markets while creating long-term shareholder value.
- ✓ Our Low working capital requirements does not require immediate sale of mined coins and allows Infinite Finances to strategically sell coins to maximize profit.
- ✓ By remaining agile and leveraging our scale, we can negotiate favorable contracts and quickly adapt to changing circumstances, mitigating risks to the business.

- ✓ **ULTRA FAST & SECURE**  
Create your Account portfolio on our ultra fast and secure portal.
- ✓ **RELIABLE & LOW COST**  
Start mining the quick way with our low cost smart contracts.
- ✓ **GET PAID**  
Receive Daily profits, rewards and bonuses straight to your Infinite Finances account.

**HIGHLY SCALABLE**  
Stay ahead of dips or surges.

**UNLIMITED YIELD**  
Get rewarded for building strategies that the community loves.

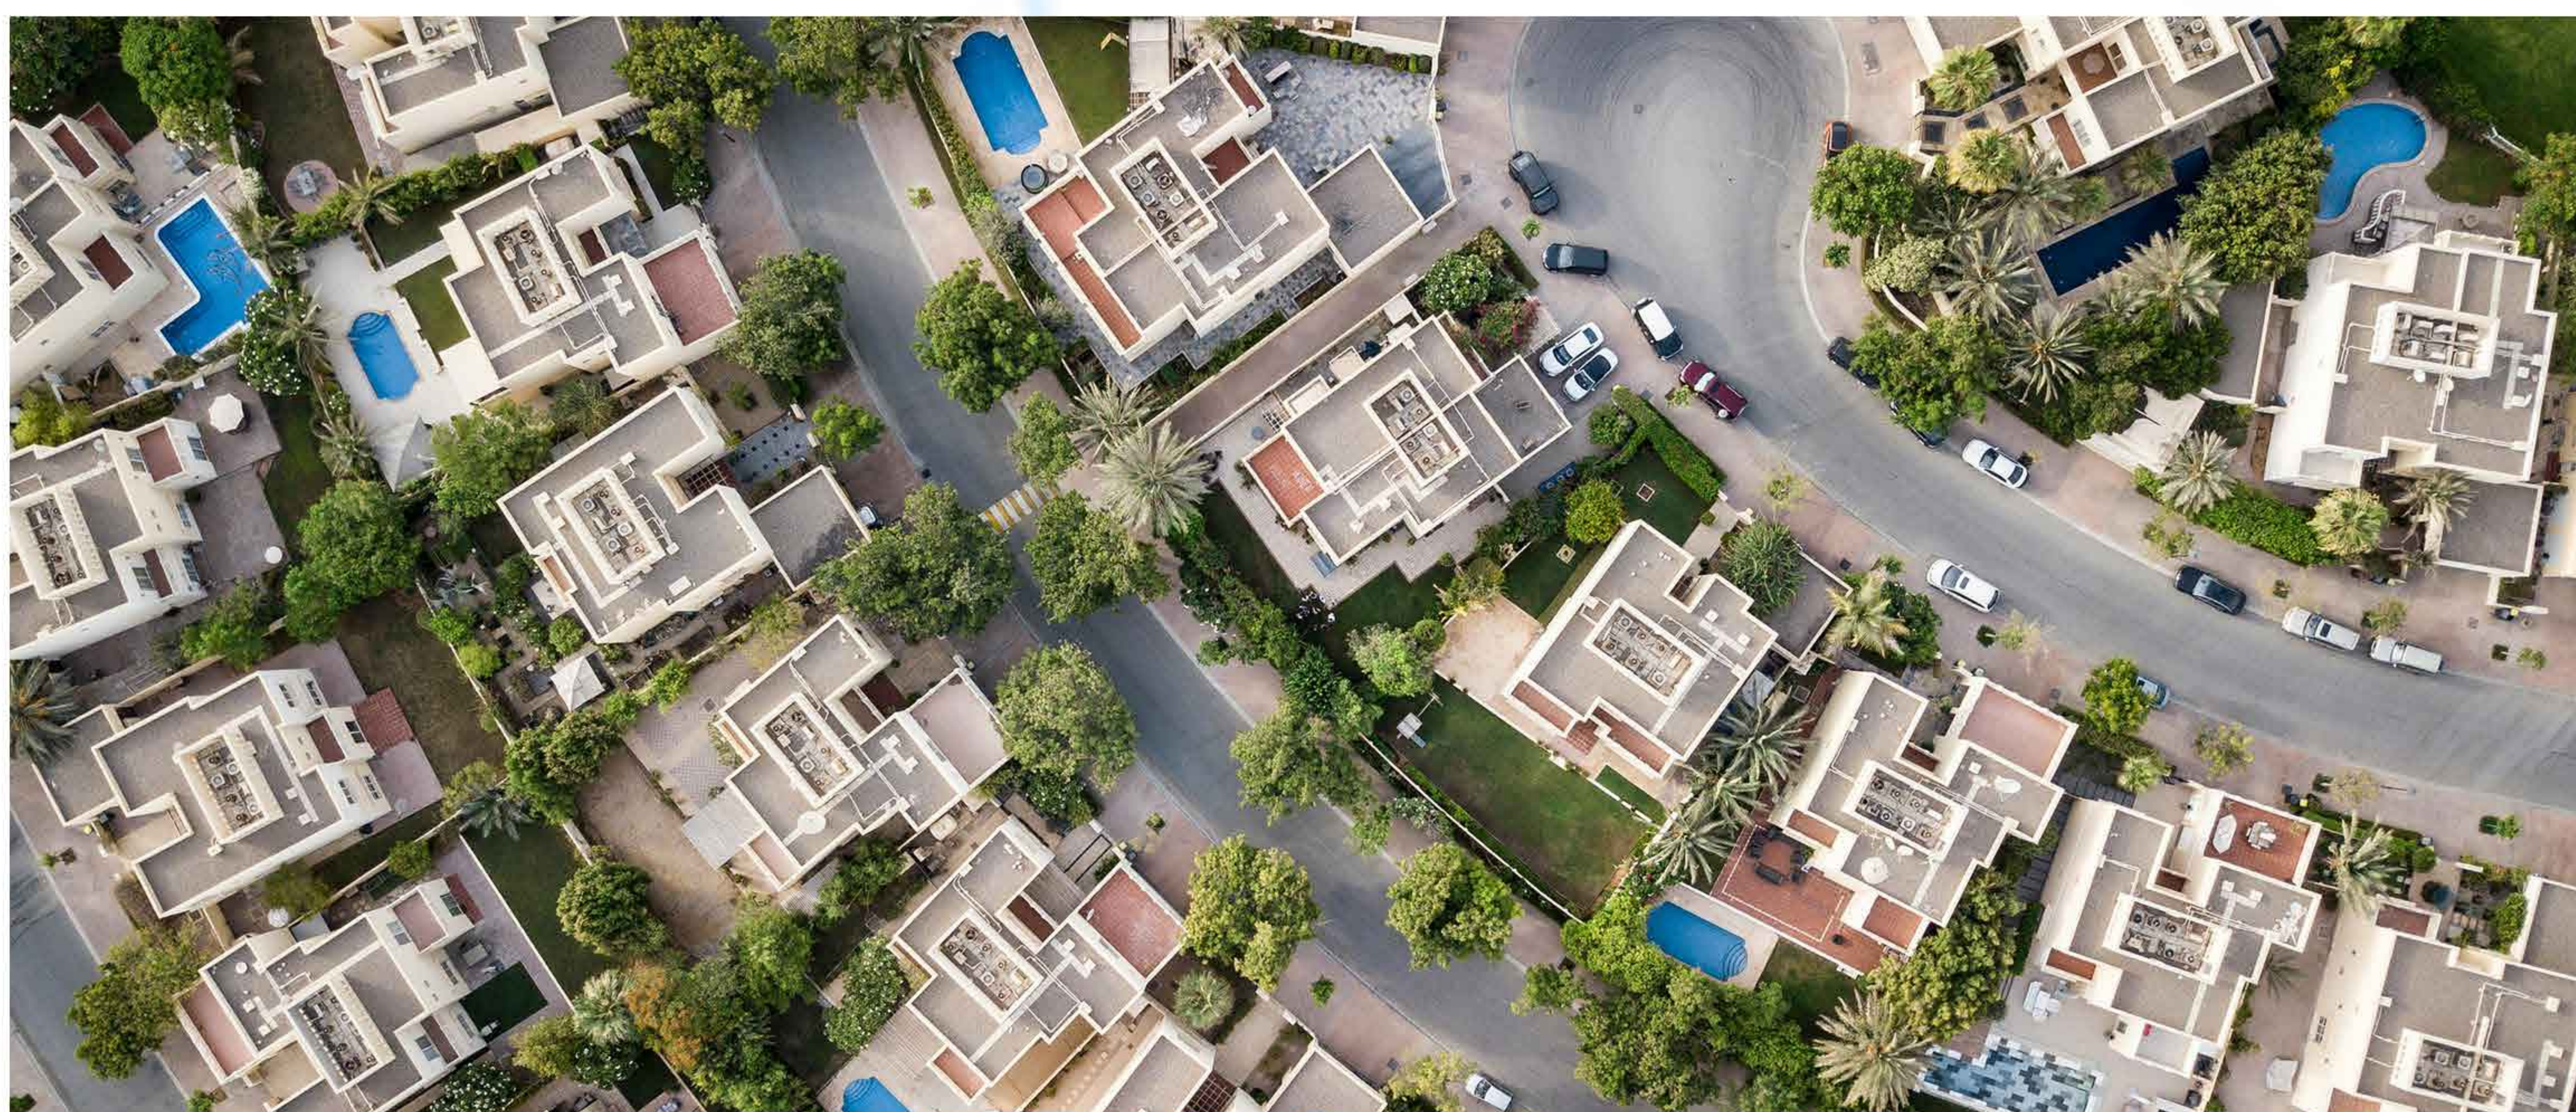

**AUTO COIN CONVERSION**  
Avoid volatility by automatically converting coins.

**FULLY AUTOMATED**  
Effortlessly grow your digital assets.

# OUR SERVICES

## REAL ESTATE

Our real estate market deal offers investors the opportunity to purchase properties at a lower price than their market value. These properties are typically being sold due to the owner's financial distress or other personal reasons. While investing in real estate deals can potentially yield significant profits, it's important to exercise caution and conduct proper research to minimize risks. If you're interested in learning more about distress deals and how they can fit into your investment portfolio, we're here to help. Contact us today for more information.

The terms land, real estate, and real property are often used interchangeably, but there are distinctions.

Land refers to the earth's surface down to the center of the earth and upward to the airspace above, including the trees, minerals, and water. The physical characteristics of land include its immobility, indestructibility, and uniqueness, where each parcel of land differs geographically.

Real estate encompasses the land, plus any permanent man-made additions, such as houses and other buildings. Any additions or changes to the land that affects the property's value are called an improvement. Once land is improved, the total capital and labor used to build the improvement represent a sizable fixed investment. Though a building can be razed, improvements like drainage, electricity, water and sewer systems tend to be permanent. Real property includes the land and additions to the land plus the rights inherent to its ownership and usage.

## CRYPTO LOAN

If you are not ready to part with decentralized money, at a time when prices are relatively low, but need some fiat cash to cover costs in times of crisis, Infinite Finances crypto-backed loans is a working solution. A number of platforms offer this type of service and their popularity is growing among cryptocurrency enthusiasts who are intent on hodling.

Cooperation within the blockchain space helps to expand the coverage of crypto credit and banking services.

Infinite Finances has launched a crypto lender firm targeting shareholders that has an up liner or down liners who has joined the holidays Proposals or Insurance
